100 Years
Voggenreiter
music inside 1919–2019

Celebrating 100 years of "music inside", Voggenreiter Publishers was and of course is one of the leading German publishers of music and music-related books. There's a reason for our success: Since 1919 we've been supplying our readers with the best tuition material available. Self-taught, studying with a music teacher, complete beginner or seasoned pro - there's a book for everyone in our vast range of innovative, modern and bestselling books.

But that's not all: In the new millennium, we've been steadily extending our product range by instruments developed especially for early musical education. Our products are sold at music stores, book stores, toy stores and online stores.

To expand our marketing channels and reach new customers we're now looking for reliable retailers and distributors. We'd like to introduce the newest additions to our product range: new and innovative musical education apps bundled with the corresponding instrument.

Here's how it works:

Customers purchase a code card that can be used to download the app and install it on up to three different devices, so your app is always at hand – on your Tablet, PC or Smartphone. And because you purchased an instrument along with your app, you'll be making real music in just a few minutes.

The first in this exciting new product line are 4 trendsetting apps:

- Hello Music (supported languages: English, Portuguese and German, 1 year+)
- Baby Composer (supported languages: English, Portuguese and German, 3 years+)
- Flute Master (supported languages: English, French, Spanish, Portuguese and German, 6 years+)
- Rhythmic Village (supported languages: English, Spanish, Portuguese and German, 6 years+)

These unique apps were introduced in 2018 and immediately sold successfully among our customers.

Among other awards, these apps have been awarded "No. 1 worldwide educator's choice" by Microsoft Partners in Learning

CORNELIUS COMPOSER (APP)

We think it's the most amazing way to compose music!

Composing music is child's play using Cornelius Composer's intuitive functions ... without needing complex and difficult to use dedicated software. You can compose to your heart's content on your PC, Tablet or Smartphone.

Cornelius Composer's unique features allow students to freely develop their musical creativity, learning to read music and compose their own songs along the way. Teachers and pedagogues will love Cornelius Composer's unique support for composing and playing music for classroom use quickly and right on-the-spot. Changing the color of notes is very straightforward so adapting your score to the colors of different instruments is easy and intuitive.

But there's more: Cornelius Composer features handy functions assisting the student in learning to read music and ear training, like the innovative Solfège function allowing you to have your compositions sung in "Solfège-speak" (do, re, mi).

Last not least, you can export your compositions for further editing with professional music notation software.

Features:

- Intuitive user interface
- Suitable for students and elementary school teachers
- Save and export your own compositions
- Change note colors and animate notes
- Playback using "Solfège-speak (do, re, mi) or instrument(s)
- Live editing during playback
- Loop function for practice and ear training

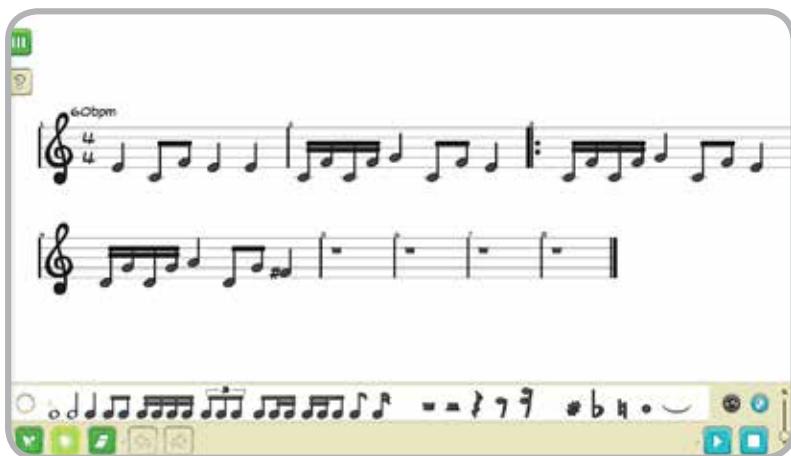

Extras:

- Language support: English, German, Portuguese
- Export formats: MusicXML, PDF
- Available for Windows 7/8/10, iOS (v.10+), Android (v.5.0+, suitable hardware required) and macOS (10.9+).

Musik fuer Kleine – Premium. Wooden sound toys of the highest quality, handmade in Germany from the choicest materials by a small manufactory. The softly rounded, smooth shapes of these sound toys perfectly fit small hands, making even the first touch a truly enjoyable experience. But we didn't neglect the other senses, of course: the amazing "day & night" design of these sound toys made from beech (day) and walnut (night) is a real feast on the eyes. Moreover, "day" and "night" versions of each sound toy have their own sound – so there's a different sound for each hand!

Flawlessly executed traditional craftsmanship combined with the best natural materials ensures highest product safety and the best possible sound – and that's exactly what we mean by „premium“!

VOGGY'S OUTDOOR UKULELE

Your unbreakable indoor/outdoor instrument!

Where others have to give in, this Ukulele really comes into its own: at camping, in the sandbox, the garden or at the beach – even short underwater adventures will leave this durable instrument unscathed. Moisture and temperature variations, natural enemies of all wooden instruments are no match for this Ukulele. Being made from nearly unbreakable ABS plastic, this instrument holds up to harder use, being left in the garden or even a short summer rain.

Smoothly rounded fretboard edges and integrated frets are easy on the fretting hand while also making your Outdoor Ukulele practically maintenance-free.

And last not least: the Outdoor Ukulele is a good-sounding real instrument!

Hint: tuners should be dried as fast as possible after underwater use.

Volt Classical Guitars Student

Made in
Portugal

Perfect for beginners!

The high quality and superior sound of luthier Pinto Carvalho's instruments inspired us right from the start. And we fell even more in love with their fine playability and good looks.

The life of every one of these guitars begins by choosing a suitable piece of wood from the company's own wood yard. The woods most commonly used are spruce, cedar, walnut, sapelli, mahogany and ovangkol.

Combining the traditional art of lutherie with modern high-tech machinery creates instruments matchless in their class. These guitars are ideally suited for beginners or music schools and a perfect companion during the first few years of the exciting adventure music!

ACOUSTIC GUITAR

from beginner to intermediate level

Amongst the many guitar methods you can buy today, this book is something special. After many years of teaching and a close look at available guitar tutors, the authors of this method are convinced that there is something that has been missing:

That is, a guitar method that keeps the students' mind open for all musical styles and doesn't limit him to only one musical direction.

- A guitar method that provides the student with music he is familiar with, i.e. pop music.
- A guitar method that slowly and gently introduces the student to classical music and offers a carefully selected choice of musical pieces in this field.
- A guitar method that introduces staff notation and music theory in a simplified way that is easy to understand.
- A guitar method that includes a CD which does not only support the student's practice but is fun to listen to as well.

ROCK GUITAR

This book is an introduction to rock guitar playing.

Very easy, without notes, and right from scratch.

In Part 1 you will learn easy basic rhythms played with a rock guitar sound. Things really get going in Part 2.

You will discover the secrets of rock songs by Jimi Hendrix, Metallica, Van Halen and AC/DC. Here you can really take off. And there are riffs, solo techniques and the popular touch (tapping) style of playing.

In Part 3 you will see how your guitar can be changed into a speeding rocket. There are finger exercises for the left hand and much, much more.

SUPersonic GUITAR GROOVES

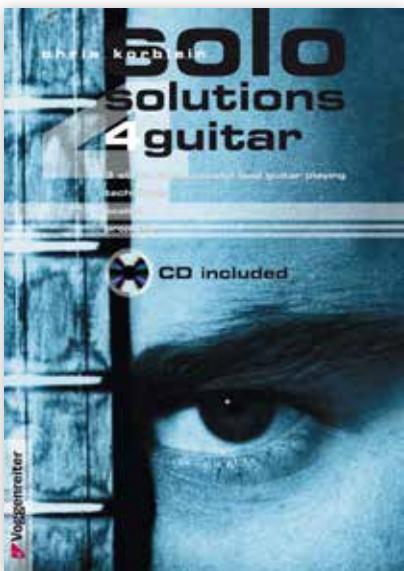

The goal of this book is to promote rhythmically and harmonically challenging phrases and licks in order to give you an authentic inside view on seven selected styles. Live or in a recording session: playing rhythm is the guitarists main duty. This makes it even harder to understand why most guitarists rhythm work (frankly) sounds rather unrehearsed and colorless.

Especially since working with drum machines and samplers has become a vital part of musical performance, a good sense of rhythm and some cool licks may just be your "key to success".

THE BEST MUSICIANS' JOKES

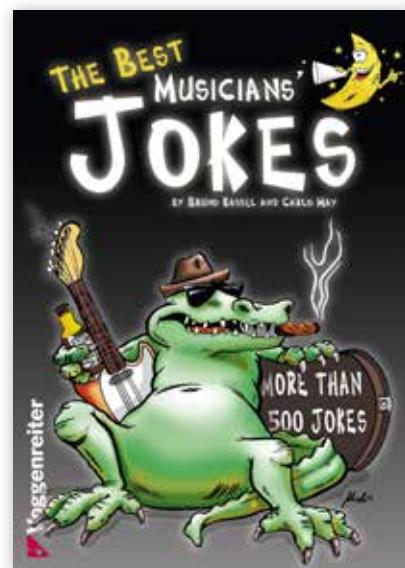

More than 500 jokes about all musician's genres, plus a foreword written by the famous drummer Pete York.

Carlo May and Bruno Kassel both live in Cologne, Germany and have been musicians since their early teens. Frightened by the perspective of becoming rich and famous, they opted for less dangerous professions. Carlo - a guitar player - was fed up with having his IQ compared to the number of strings on his instrument. He is now a journalist, working for German National Radio (Deutschlandfunk). Bruno - a drummer - used his collection of broken lightbulbs to build his own darkroom. He is now a photographer and music journalist, working for various music magazines.
